

# Barry Nierenberg, PhD, ABPP

## I. PERSONAL

Office Address: Nova Southeastern University  
Center for Psychological Studies  
3301 College Ave  
Ft. Lauderdale, FL 33314

Office Phone: 954.262.57832

Email: nierenbe@nova.edu

Home Phone: 305.899.8916

Home Address: 11111 Biscayne Blvd  
Tower1, #1904  
Miami, FL 33181

Current Academic Rank: Associate Prof,  
Primary Department: NSU Center for Psychological Studies  
Secondary Appointments: **University of Miami Miller School of Medicine:**  
Family Medicine and Community Health  
Pediatrics  
Psychiatry & Behavioral Science

Citizenship: USA

## II. HIGHER EDUCATION

### Institutional

Ph.D., 1980 University of Tennessee, Knoxville  
Psychology Department

M.S., 1975 Queens College, City University of NY  
Department of Education

B.A., 1973 State University of New York, Albany  
Department of Psychology

### Licensure & Certification:

Licensed Psychologist: Florida License #4242 (current)

Diplomate: American Board of Professional Psychology  
Specialty: Rehabilitation Psychology, #4932 (current)

### **III. EXPERIENCE**

#### **Academic**

##### **Nova Southeastern University**

May 1, 2008 – present: Associate Professor  
Center for Psychological Studies

Responsibilities include teaching beginning and advanced graduate courses across the Psy.D and PhD Doctoral programs within the Center for Psychological Studies, including running seminars and conducting trainings in health psychology and behavioral medicine. Additional responsibilities include mentoring and supervising student research and working jointly with faculty across the Nova campus on joint research projects. Also involved in developing and supervising practicum opportunities for doctoral students, interns and postdoctoral residents. Responsible for developing, organizing, and overseeing the implementation of collaborative academic and/or educational programs and/or educational activities related to behavioral health and collaborating with centers across the University, such as the Health Professions Division and with community partners. Attend departmental and other faculty meetings and activities at both the Center for Psychological Studies and other university departments.

##### **University of Miami School of Medicine**

April, 2003 – present: (Clinical Faculty)  
Department of Family Medicine and Community Health

Had primary responsibility for teaching first, second & third year Family Medicine Interns and Residents Behavioral Medicine during Grand Rounds, ongoing Noon Didactics, Required & Elective Rotations and individual supervision. Was responsible for curriculum development and evaluation. Assisted other Department faculty to secure grants involving Behavioral Medicine issues. Served on Department committees evaluating Interns and Residents progress, worked with impaired Residents and addressed issues regarding recruitment of new Interns during a time when fewer medical students were choosing Family Medicine.

February, 1992 – present: Assistant Professor, (Clinical Faculty)  
Department of Pediatrics

Participated in program development to address emotional needs of children. Assisted in the training of Pediatric Residents both in formal, group didactic sessions and in individual supervision.

March 1990 – present: Assistant Professor, (Clinical Faculty)  
Department of Psychiatry and Behavioral Science

Attended weekly Child Psychiatry Faculty Meetings and ongoing weekly Grand Rounds. Participated in program development to address emotional needs of children. Assisted in the training of Psychiatric Residents both in formal, group didactic sessions and in individual supervision.

### **Wright State University School of Medicine**

Sept 1983 - Sept 1985: Assistant Professor,  
Department of Pediatrics (Clinical Faculty)

Attended weekly teaching rounds of Pediatric Residents focusing on psychosocial needs of hospitalized children. Presented on specific topics including anorexia nervosa, compliance with medical regimens and childhood conceptualization of illness.

### **Wright State University School of Professional Psychology**

Sept 1983 - Sept 1985: Assistant Professor, Clinical Faculty

Performed teaching, consulting and supervisory activities with graduate level psychology students. Responsibilities included classroom and seminar lectures, planning and implementation of educational activities, representation on academic committees, and individual supervision of students.

## **Hospital Appointments**

### **Jackson Memorial Medical Center :**

April, 2003 – March, 2008: Director, Behavioral Science & Behavioral Medicine, Department of Family Medicine and Community Health

Responsible for Behavioral Medicine within the Department of Family Medicine. This included planning, implementing and teaching the Mental Health and Human Behavior modules for the Family Medicine Residency as required for accreditation by the Academy of Graduate Medical Education. Also required instituting a program where behavioral science and psychiatry are integrated with all medical disciplines throughout the residents' three year educational experience. Instituted through a combination of longitudinal experiences and didactic sessions including presenting at Departmental Grand Rounds, planning and implementing Behavioral Science Noon Didactics, and attending case presentations to fully follow the biopsychosocial model. Assisted Residency Director with Intern & Resident advisements and implemented plans for remediation of impaired Interns and Residents. Improved Interns and Residents interviewing and history taking by recording interactions with patients and giving regular feedback on how to improve. Implemented and supervised 3 week Behavioral Medicine rotation.

Fully responsible for implementing and running the Behavioral Science Clinic, where Family Medicine Residents were taught to appropriately diagnose, manage and refer patients with behaviorally based problems.

Assisted in research efforts, taking responsibility for the behavioral portion of a \$3 million gift to reduce health care disparities in our population of minority patients. Co-investigator for a project involving teaching Family Medicine physicians to better diagnose, manage and refer patients with depression, anxiety and thought disorders. Brought experienced researchers from other departments within the Medical Campus into Family Medicine to partner on joint projects.

**Jackson Memorial Medical Center :**

December, 1992 – March, 2003:

Director, Division of Child & Adolescent Psychology

July 1996 – June 2002:

Director, Psychology Postdoctoral Fellowship Program,

August, 1989 – March, 2003:

Director, Pediatric Services,

Supervised 5 Doctoral level Psychology faculty within Child Psychology, with responsibility for faculty job evaluations and our teaching Psychology and Psychiatry Interns and Residents. Assisted in program development on the Child & Adolescent Psychiatry Inpatient Unit and within the Outpatient Clinic.

Responsible for building and directing psychological services to children hospitalized within the Children's Hospital Center and on the Pediatric Rehabilitation Unit. Invited to serve as member of Pediatric Rehabilitation, Burn Unit, Pediatric Intensive Care Unit, Infant and Toddler Center, Pediatric Cardiac and Renal Transplant, and Pediatric Dialysis Teams. Designed programs and service delivery systems to meet emotional and behavioral needs of children and their families. Supplied in services and participated in Grand Rounds for various staff. Consulted to physicians, nurses, physical, occupational and speech therapists and social workers.

Planned and implemented first Postdoctoral Fellowship program, served as first Director of the program and served as supervisor for interns within the APA approved internship program. Also served as member of departmental Internship Committee responsible for selection.

Provided direct inpatient and outpatient services on medical floors through individual, group and family therapy sessions for children and their families. Conducted diagnostic screenings, interviews, and evaluations on children experiencing medically related problems. These included behavioral and emotional difficulties related to Traumatic Brain Injury, Spinal Cord Injury, Limb Amputation, Myelomeningocele, Legg-Perthes Disease, Scoliosis, Burns, Aids, Asthma, Dermatology, and Renal and Cardiac problems. Conducted research into multiple factors effecting adjustment to physical dysfunction

**Newington Children's Hospital**

August 1985 - July 1989: Coordinator, Psychological Services

Assumed responsibility for organization of psychological services to the Pediatric Rehabilitation Unit. Planned and implemented programs to meet emotional and behavioral needs of patients and their families. Provided in-service programs to Rehab team on a bi-weekly basis. Coordinated referrals to other psychology staff. Served as a primary supervisor in the APA approved internship.

Provided direct services to patients and families including evaluations and individual, family and group therapy. Consulted to physicians, nurses, occupational therapists, physical therapists, speech clinicians and parents regarding behavioral interventions for problems relating to traumatic brain injury and spinal cord injury. Conducted research into areas relating to the rehabilitation process. Elected chairman of the committee planning and implementing a two-day national conference focusing of future trends in rehabilitation.

**Dayton Children's Medical Center**

September 1980 - August 1985: Pediatric Psychologist

Provided direct psychological services with children, parents and families utilizing behavioral, social learning and system intervention approaches. Performed diagnostic interviews, psychological evaluations, individual, family and group therapy with children on both an inpatient and outpatient basis. Consulted to physicians, professional staff, nurses and parents in the design and implementation of treatment programs for medically related problems.

Participated in interdisciplinary team conferences focusing on behavioral and emotional problems associated with Oncology, Asthma, Diabetes, Hemophilia, Spina Bifida, Prader-Willi Syndrome, Tourette's Syndrome, Pediatric Rehabilitation, elimination disorders, pain related disorders and learning disabilities. Proposed and implemented behavioral methodologies for the Burn Unit. Authored grant proposals and conducted professional research

**Cincinnati Children's Hospital Medical Center**

October 1978-September 1980: Pediatric Psychology Intern

Under supervision of a licensed Psychologist, completed a two year internship in Pediatric Psychology. Provided direct psychological services. Conducted therapy with children, parents and families utilizing social learning, system and behavioral interventions. Acquired skills in the areas of pain and stress management. Coordinated referrals from the outpatient department. Functioned as consultant to physicians and nurses on inpatient referrals. Conducted diagnostic interviews and interpretive counseling with parents of children referred for psychological evaluation. Supervised psychometric examination of children. Taught at resident conferences as an invited speaker. Attended weekly medical Grand Rounds, lectures and psychology conferences.

**Univ. of Tennessee Memorial Hospital:**

July, 1976 – October, 1978: Psychology Graduate Intern, Department of

## Pediatrics

Under supervision of a licensed Psychologist, worked on the Pediatrics Unit. Assisted in the planning and execution of research projects involving psychological growth patterns of premature infants within the first eighteen months of life. Gathered data for the establishment of norms for premature infants on the Brazelton Neonatal Assessment Scale. Counseled parents and children referred by physicians and residents. Participated in the design and implementation of weekly Pediatric Psychology conferences for medical residents. Functioned as a co-leader for staff development of nursing teams. Planned and coordinated hospital's Child Life program; trained and supervised undergraduate staff members

**New York Metropolitan Hospital:**

September 1974-June 1975: Psychology Graduate Intern, Department of Pediatrics

Under supervision of two licensed Psychologists, worked with children and adolescents referred on an outpatient basis. Performed evaluations and conducted psychotherapy on selected cases. Consulted with physicians, nurses, parents and community organizations regarding implementation of treatment recommendations.
